

How to Switch

Checklist

1

DETERMINE the goals of your drug-free workplace program and how oral fluid accomplishes them.

2

REVIEW the OraSure territory map to contact your OraSure rep for a free consultation on the best oral fluid screening solutions for you program.

3

REVIEW applicable state laws and update your drug-free workplace policy.

4

CHECK with your lab, MRO, or TPA to confirm their oral fluid offerings.

5

FINALIZE your policy and inform employees about the addition of oral fluid testing to your workplace.

6

TRAIN necessary employees and/or confirm your collection site personnel are trained on oral fluid collections.

7

START your new program, keep your employees safe, and watch the results roll in!

Wondering if oral fluid is permitted in your state? Check out OraSure's state-by-state guide.
